

CARL RODDY, LEFT, AND OREL HARTMAN, Mail Room, look over a part of the vast accumulation of "junk mail" addressed to Y-12ers. This batch built up in an 11-day period.

'Junk Mail' Proving Problem To Mail Room; Cooperation Is Urged To End Congestion

5,074 Pieces Of Magazines, Advertising Matter Weighing 1,321 Pounds Accumulates

The Y-12 Mail Department has had to learn the hard way all of the troubles of "junk mail" and problems of the dead letter office of the United States Postoffice Department. With only a comparatively small staff of employees, the Y-12 Mail Room crew gradually is finding itself figuratively "knee deep" in a conglomeration of "free issue" publications of all shapes and sizes, advertising circulars, sales promotion literature and other mailed matter that is actually clogging the normal functions of the department.

Accumulated In 11 Days

According to Carl Roddy, of Plant Records and in charge of the Mail Department operations, during the period from May 2 through May 13, the Y-12 Mail Department received 5,074 pieces of so-called "junk mail," weighing a total of 1,321 pounds. That's a lot of mail to handle—in addition to the plant and United States mail moving through

regular channels, delivery of which is most important.

Frankly, the Mail Department is "up against it" in trying to figure a solution of the problem of "junk mail." The material is correctly addressed to Y-12ers throughout the plant and is legally permissible to pass through postal channels. The "junk mail," it is stressed, does not include legitimate matter such as paid subscriptions by Y-12ers to technical magazines and other material—but it does include a vast amount of publications mailed free to employees from many sources.

Magazines Seek Subscriptions

Here's a sample of some of the accumulated "junk mail" in the Mail Department. There are 475 copies of Chemical Processing magazine, a bulky technical magazine, mailed absolutely without cost to Y-12ers. There are brochures soliciting subscriptions to News Week and Fortune Magazines. Also there is a large batch of 46-page circulars advertising radios and parts. There are other types of catalogs too numerous to mention.

As an initial step, the Mail Department is

Larry Mason, Son Of Y-12er, Going To USAF Academy

Larry Mason, 18-year-old son of C. W. Mason, of the Y-12 Research Services Department, last Friday morning received word of his acceptance by the United States Air Force Academy at Colorado Springs, Col. Young Mason is a popular athlete and student at Oak Ridge High School, from which he will graduate within the next few days.

Young Mason received Congressional appointment to the Air Force Academy from Rep. Howard Baker and Sens. Estes Kefauver and Albert Gore. He took his mental and physical tests some time back at the Smyrna Air Force Base near Nashville. His official notice of acceptance was by registered air mail letter.

Larry Mason will report to the academy on June 27. At ORHS he was a star football player for the Wildcats and also a track team member. He received good grades in all of his studies.

Memorial Day Holiday Monday Gives Y-12ers Opportunity To Pay Tribute To War Victims

Many holidays on the calendar are dedicated to remembrance of individuals—honoring their birthdays in recognition of some outstanding record. Others are dedicated to people as a group—groups that have established themselves in history for their devotion to humanity, to certain causes and principles.

Such a holiday will be observed next Monday, May 30, when Memorial Day comes around. It is the day to honor all of the wearers of the uniform of the United States in all of its conflicts against armed enemies—those who made the supreme sacrifice for their country. Just once every year Americans are given the opportunity to pay tribute to these men—and women—who

gave their lives so that their country would remain free.

Memorial Day is, of course, a holiday for all Y-12ers and other Carbide employees in Oak Ridge. On that date no employee will be required to work except those required to maintain continuous op-

erations and protection of the plant.

The holiday will provide another long week-end holiday for Y-12ers and their families—and with summer apparently on the scene, the period undoubtedly will be utilized by many for week-end trips, outdoor sports and other activities fitting for the season.

It would be most fitting that on Memorial Day that every Y-12er pause a moment to revere the memory of those for which the occasion is intended to honor. Display of the American flag at homes and business establishments and the placing of flowers on the graves of veterans who died in service is just another method of paying tribute to these honored men and women to whom the nation owes so much.

Y-12er Wiley J. Grigsby To End 16 Years Of Company Service With Retirement As Carbide Employee On Next Tuesday, May 31

Machine Shop Clerk Is Native Tennessean

The fifth Y-12er to retire this year and the 64th since Carbide took over operations of the plant on May 4, 1947, will be Wiley Julian Grigsby, a record clerk in the General Machine Shop of the Mechanical Operations Division. He will end 16 years and three months of Company Service on next Tuesday, May 31.

Grigsby is a native Tennessean, having been born May 23, 1895, in Whitehorn. After attending elementary school at Chuckey, Tenn., he attended Tennessee Wesleyan College at Athens from 1912 through 1914 and then went to Knoxville Business College in 1914-1915.

Had Varied Y-12 Career

He came to work in the Y-12 Plant on February 8, 1944 and has had a varied career since. He first was in the Guard Department, where he soon was promoted to the rank of sergeant. He then became a time clerk and checker and later a truck driver. After joining the General Machine Shop forces he was first a materials and parts man, then promoted to record clerk.

Grigsby was one of the early enrollees in the Carbide Retirement Plan when that Company benefit became available for Y-12 employees. With his long Company Service he also is eligible for benefits under the Carbide Pension Plan.

Before coming to Y-12, Grigsby was connected with the food business in one capacity or another for several years. He was a salesman and one-half owner of Grigsby and Co., wholesale grocers, at Asheville, N. C., and later became a partner and salesman for the Nashville (Tenn.) Food Specialists Co. From 1924 to 1943 he did clerical work for the J. A. Grigsby and Co. at Whitehorn.

Was In Royal Air Force

He had an active military career back in World War I, joining the Canadian Expeditionary Forces in 1916, becoming an airplane pilot. He later transferred to the Royal Air Force and carried many important dispatches by air during the conflict. He is a member of the Rogersville, Tenn., American Legion post.

As far as his future is concerned, Grigsby plans to remain at his home in Kingston with his wife, Helen,

GENERAL MACHINE SHOPPER WILEY J. GRIGSBY, in suit, who retires as a Y-12er May 31, receives best wishes for a happy future from fellow employees as they give him a bench grinder, on table in front of him, and a cash gift being handed over by General Foreman Fred Pugh. From left looking on are Foreman P. C. Larue, Peggy Ledford, Janice Gore, Lucille Pruitt, Kathleen Milligan, Ed Hargis and Foreman J. H. Patrick.

where he can "fish in the lake from my back yard." The Grigsbys have a son employed in Louisville, Ky. Another son was killed in the Korean fighting.

Fellow employees in the General Machine Shop last week surprised Grigsby with a small farewell gathering, with General Foreman F. M. Pugh acting as master of ceremonies. The Shoppers expressed their regret at Grigsby's forthcoming departure and with the general foreman praised his work with the department. Grigsby was presented a bench grinder as a "going away" present, a welcome addition to his home workshop equipment according to the expectant retiree.

"I'll always have nice memories of my work in Y-12," Grigsby told his fellow employees, "and hope I will be able to see all of your frequently."

COLD HURTS BEER SALES

A drop in beer consumption during the winter in Austria was blamed on the cold, rainy weather—plus increased drinking of cider.

UNOFFICIAL SAFETY RECORD IS SET IN Y-12 PLANT

Union Carbide employees of the Y-12 Plant have set an unofficial all-time accident-free mark of 5,402,000 hours of plant operations without a disabling injury, reaching the milestone at 12:01 a.m., Monday morning, May 23. The old mark of 5,394,077 hours was established from December 17, 1957, to June 3, 1958.

WILEY J. GRIGSBY, center, receives his first Carbide pension and retirement checks from Arnold Tiller, right, of the Insurance Department as General Machine Shop General Foreman Fred Pugh looks on.

Plasma Physics Symposium To Be Held In Gatlinburg

A symposium designed to provide an introduction to thermonuclear plasma physics will be held in Gatlinburg, Tenn., August 22-25. The symposium will be sponsored by Oak Ridge National Laboratory and the Oak Ridge Institute of Nuclear Studies, in cooperation with the United States Atomic Energy Commission.

The conference is to be devoted to the elementary aspects of achieving controllable release of energy in significant amounts from thermonuclear fusion reactions. The meeting will center around a course of four lectures on basic theory, with supplementary lectures on various separate experimental approaches and aspects of plasma physics of more general interest.

'Special Specials' Are Being Planned By Y-12 Cafeteria

The Y-12 Cafeteria has discontinued its regular Thursday 50-cent Special Lunches—but has announced that "Special Specials" may be offered periodically in the future. These "Special Specials," if offered, will not be limited to any one particular day of the week and the price will be determined by the entree to be served on the luncheon.

The "Special Specials" permit a flexibility in selection of entrees, day of offering and price to provide Y-12ers with an appetizing lunch at an attractive price. Plans for presenting the "Special Specials" now are being worked out and the dates and menus for these meals will be announced in advance, if possible.

The Tuesday Special Lunches will be continued at the Cafeteria.

Rides Wanted, Offered

Ride wanted from 118 West Bryn Mawr Circle, West Village, Oak Ridge, to North Portal, straight day. Caila Cox, plant phone 7016, home phone Oak Ridge 5-3935.

Ride wanted from 4413 Sutherland Ave., Knoxville, to Bear Creek Portal, straight day. Jo Ann Baumann, plant phone 7-8719, home phone Knoxville 8-4245.

Ride wanted or will join car pool from North Knoxville to North Portal, E Shift. H. A. Tabe, plant phone 7-8259, home phone Knoxville 4-3668.

Ride wanted or will join car pool from Burlington section of Knoxville to East Portal, straight 4:30 p.m. to 12:30 a.m. shift. J. C. Taylor, plant phone 7-8816, home phone Knoxville 4-2087.

Car pool member wanted from West Haven section, Knox County, to East or North Portal, straight day. R. D. Satterfield, plant phone 7-8254, home phone Knoxville 3-5243.

Ride wanted or will join car pool from Cherokee Hills, Kingston, to any portal, A Shift. P. W. Avera, plant phone 7549, home phone Kingston 6-7127.

One or two car pool members wanted from vicinity Outer Drive and Pennsylvania Ave., Oak Ridge, to Central or North Portal, straight day. H. B. Greene, plant phone 7621, home phone Oak Ridge 5-1635.

Get well wishes are extended to the following Y-12 employees who were patients last week in the Oak Ridge Hospital:

W. J. Kisiah and G. W. Manning, Mechanical Maintenance; W. C. Anderson, Stores; S. L. Jamroz, Research Services; F. H. Pitzer, Sunflower Shop; Goebel Hoskins and O. A. Lunch, Guard; D. L. Hall and R. H. Bradshaw, General Machine Shop; F. O. Fox, TW Shop; A. J. Bingham and C. I. Keylon, Buildings and Grounds; N. B. Kepfinger, Jr., Electrical; E. W. Arrington, Forming.

With the Merry Month of May finally on its good behavior—from the standpoint of temperature—Strictly Corn will again be conducted around the premises for—
One More Time—With Feeling—

MECHANICAL OPERATIONS

Great news from Production Control—and from the Colyum's former sleuth up thataway, Milt Dickens, who was badly bungled up some time back when his sports car tried to climb a pole over on the Knoxville-Kingston Pike. Peggy, that's Milt's spouse and a former Y-12er herself, phoned the Colyum Conductor last week, saying Milt had a message. 'Twas done—and the welcome voice of the injured Y-12er declared:

"Hi boy, I just want youse guys out there to know I have been promoted from the Fourth Floor of University Hospital, over here in Knoxville, to the Fifth Floor—and I CAN RECEIVE VISITORS IN ROOM 521."

'Tis with pleasure that this information is passed along—and the CC urges one and all of Milt's friends (and there are lots of them despite the fact he was a sports umpire) to give him a phone call or make a visit over to see him.

More Production Control chit-chat reports a flock of vacationers. Jerry Houser and Betty Ward are at their homes in Oak Ridge. Ray Fletcher is lolling on the sands of Virginia Beach. John Harding is moving into his new Oak Ridge home. Bill Weaver is taking it easy at home in Fountain City. Welcomed in recently were Nancy White, replacing Phyllis Smith; Bob Smith from Paducah, Al Strickland from Birmingham and Ray Curtis, a transfer from another Y-12 department. Clyde Hopkins is spending most of his vacation taking care of his two gals—wife Ada and little Cindy Lynn, born May 11. The Bill Weavers have added another son to their collection and have named him Randall David, born May 9 and weighing six pounds, five ounces.

The Colyum warmly welcomes aboard Mildred Morris as its new reporter in the Sunflower Shop, who is making an admirable start this week. Get well wishes are being sent to E. Cooper, recovering from a broken hip. Also to W. N. Peoples in St. Mary's Hospital, Knoxville. R. E. Norton is the Sunflower's new record clerk—he transferred recently from Salvage. In addition to this milestone he became the Proud Pop of a boy born May 8, the second male child in the family that also has three daughters. Norton isn't passing out cigars, he says he's "passing the hat." R. L. Habermas is among the vacationers—out scanning the skies for that big old bird, Mr. Stork.

Z Area zooms in with word that Bill Simpson is vacationing for a week in Lawrenceville, Tenn., with an extension of his wanderings probably taking him to Georgia and Florida. Al Gillen is up in Paducah, Ky., fishing in Kentucky Lake. Jim Rolston has gone to Florida for a few days of angling. Tom Pyle is working around his home and D. M. Finger is resting up down in Friendsville. Shorty Plements is back from his fishing foray with a number of tall tales.

The General Machine Shop dusted off its red rug of welcome to greet newcomers Bob Kelley, R. E. Phillips and R. W. Fields. Rapid recovery wishes go to a whole slew of ailing folks, including C. L. Ramsey in Presbyterian Hospital, Knoxville; G. R. Easter, F. E. McKeethan, A. L. Cardwell, C. L. Ward, E. G. Gardner and H. E. Schultz. Vacationers include Bruce Hogg, remodeling his house; Bob Horton, painting his home in Clinton; Lamon Keith and Fred McNamara taking it easy at their Knoxville homes; and numerous and sundry other Shoppers who did not dis-

close their plans before departure.

The TW Shop tells that W. W. Ballard was undecided on vacation plans—whether to indulge in water sports in nearby lakes or go to Florida. J. H. Householder is fishing and boating hereabouts. H. Crutchfield is just loafing (a fine career). Get well wishes go to F. O. Fox, still felled with the flu; and G. Hyatt, recovering from a broken hand.

Beta Four Heavy Machine Shop says H. S. Carey thought he was taking a restful vacation—but found himself working on a new kitchen as soon as he got home. W. D. Burger was a smart cookie—he just stayed at home instead of braving that chilly early May weather to go fishing.

CHEMICAL OPERATIONS

The Chemical Department is congratulating Dan J. Cooley, who welcomed a new son to the family May 12. The youngster weighed nine pounds when born at Harri-man Hospital.

Beta Two and its C Shift warmly welcomed O. G. Sharp to the group last week. L. C. Hamilton is working on his new home while vacationing.

Colexers have traded the ocean beaches for Tennessee lakes as their No. 1 vacation spot. Dave Masters is among the fortunate gents with a cabin at Sequoia Landing for his resting up time. Ray Ellis is trying out his new boat on Norris Lake. Frankie Townsend is taking his family on a grand tour of the South, ending up in New Orleans. Don Vanover is relaxing at home in Oak Ridge. Get well wishes go to W. C. Asbury, on the sick list.

INDUSTRIAL RELATIONS

Plant Protection and a lot of other friends around the place of Ken Merrill, extend their sincere sympathy to him and Mrs. Merrill over the death on May 16 of her mother, Mrs. F. C. Wiser, at Chester, Pa. The Plant Protection Department welcomes Ann Hensley to the group—she is replacing Nancy Vandergriff, who left last Friday for a maternal career.

Safety recently rolled out its best crimson carpet of welcome for newcomer Darlene Hunnicutt.

The Boys in Blue and Gray of the Fire and Guard Department have welcomed Guard G. S. Pollitt back after a bout with the pneumonia bug. Guard L. A. Litton is home from his hospitalization and receiving get well wishes. The same wishes go to Guard S. H. Kesterson in St. Mary's Hospital in Knoxville. Likewise to Guards Goebel Hoskins and A. O. "Joe" Lynch in Oak Ridge Hospital. Capt. P. C. Dabbs has jaunted up to Princeton, N. J., for a visit with his daughter, Barbara Ann, and the kiddies.

The Cafeteria confides that K. D. Patterson spent his two-week vacation at his Morristown home. Vena Summitt is taking a week off

Leonard G. Whitten, Jr.

at her home in Lenoir City. D. H. Treece is doing likewise in Knoxville with some fishing trips planned.

MAINTENANCE

Any resemblance of this smiling young 'un to a radio and TV per-

Ricky Nelson

sonality of similar name is purely coincidental—and this lad can't even sing rock 'n' roll music (?) yet. This Ricky is the son of J. W. Nelson, of Buildings and Grounds and his mother is Martha Jane Nelson, a former Y-12er in Production Analysis.

Last week The Bulletin's Hospital List had Robert T. Guice, of Research Services, in the Alloy Shop of Mechanical Operations. Proud of his present assignment he called The Colyum to make the correction and to report he was still recuperating from his illness at home but hopes to be back in harness soon. W. H. Harrington is visiting kin folks in Dallas, Tex., and Reno, Nev., while vacationing. P. Overton is spending three weeks to see the sights between Oak Ridge and California. D. F. Kirby is visiting a seriously ill son in Tucson, Ariz. T. E. McCarroll will see his son graduate from Middle Tennessee State College at Murfreesboro and then spend a few days fishing. W. R. Jones is having a family reunion at his home in Norris, among the family is his 80-year-old father from Seattle, Wash. Sympathy is extended to O. L. Evans, whose brother died recently. Rapid recovery wishes are sent to the young son of R. E. Baxter, who underwent surgery recently.

An obliging chap is C. G. Treece, Electrical—he's going to help J. V. Bibee pick strawberries before going to visit friends and relatives in Georgia. A. T. Wallace is wandering around Florida for a week. W. S. Arnold is seeing kin folks in Murfreesboro. K. W. Rainbolt is relaxing at home in Karns and T. W. Baker is redecorating his home while vacationing. M. C.

Continued on Page 4

Y-12er Will Address ASTME Meet June 7

Leonard G. Whitten
To Speak on Metrology

Leonard G. Whitten, Jr., of the Y-12 Production Inspection Department of the Technical Division, will speak at the next meeting of the Knoxville-Oak Ridge Chapter of the American Society of Tool and Manufacturing Engineers on Tuesday night, June 7. The meeting will be a dinner session, beginning at 7 o'clock, with the technical meeting starting at 8 o'clock. The gathering will be at the Dwarf Restaurant on the Knoxville-Clinton Pike next to the Tate Motel.

Whitten's talk will be on the science of metrology. He will show a series of slides to illustrate his address.

The speaker is a graduate of Auburn, Ala., University in the class of 1952. He joined Union Carbide Nuclear Company in 1952 and worked at the Oak Ridge Gaseous Diffusion Plant as an engineer in the Research and Development Division. From 1956 to 1957 he was with the Northrup Aviation Corporation at Los Angeles, Cal., and Cape Canaveral, Fla., as an airborne instrumentation engineer.

He came to the Y-12 Production Inspection Department in 1957, where he has worked primarily in the field of metrology.

Y-12ers With 15, 10 Years Company Service

Congratulations to the Y-12 employees listed below who will complete 15 years of Company Service within the next few days. No Y-12er will observe a 10th employment anniversary within the next week.

15 YEARS

George W. Ferrell, Forming, May 26.

Homer Baker, Stores, May 27. Inadvertently omitted from the list of Y-12 employees observing a 10th employment anniversary on February 21 of this year was the name of F. K. Clabough, Sunflower Shop. The Bulletin regrets the omission.

AWS Installs Y-12 Men As Officers Of Section

Installation of new officers and presentation of certificates marked a dinner-dance meeting of the Northeast Tennessee Section of the American Welding Society last Saturday night, May 21, at the Deane Hill Country Club. The certificate presentations were made by E. C. Miller, director of the Southeast District of the AWS.

Four Y-12ers were among the members of the board of directors installed for the coming year. They were Harold M. Payne, E. N. Rogers and L. A. Morris, all of Mechanical Inspection; and T. D. Goodman, Physical Testing. Other officers are Pete Patriarca, Oak Ridge National Laboratory, chairman; H. B. Harlon, Oak Ridge Gaseous Diffusion Plant, first vice chairman; T. C. Dempster, Knoxville, second vice chairman; Frank J. Lambert, Y-12 Development Operations Department, secretary; and T. R. Rutley, ORGDP, treasurer.

Instrument Society Group To Elect Officers June 1

Officers for the 1960-1961 season of the Oak Ridge Section of the Instrument Society of America will be elected at a meeting next Wednesday night, June 1. The session will be a dinner meeting at the Regas Restaurant in Knoxville with a social hour at 6:30 o'clock to precede the dinner and business meeting. A movie prepared by the ISA national office, "Instrumentation of a Widget," will be shown.

RECEIVING THEIR DOOR PRIZES at the recent Y-12 Spring Dance is this happy group. From left are Assistant Y-12 Plant Superintendent George Strasser, who presided at the shindig; Mildred Kidwell, Tabulation Service, who drew the winning numbers; Bill Schill, ORNL, who wife is with the Y-12 Chemical Operations Division, holding the electric percolator he won; Joyce Powers, former Y-12er, joyous over a spinning reel she drew; and Jim Billings, Sunflower Shop, with his newly acquired electric frypan.

Three Slow Pitch Teams Unbeaten

Fast Pitch Loop Sets First Games This Week

The Oak Ridge Gaseous Diffusion Plant D Shift team took over first place in the Carbide Slow Pitch Softball League in the opening week of play at the Jefferson diamond with three triumphs and no losses. The Kentucky Wonders, another ORGDP outfit, was second with a pair of wins and no defeats while the Y-12 Eagles were third with a win in their only game.

The Eagles posted their win over the 9215ers, also a Y-12 outfit, by a 24 to 4 decision. D Shift beat the Y-12 Yankees by 17 to 12, the Dodgems of ORGDP by 17 to 7 and the ORGDP Payolas by 25 to 7. The Kentucky Wonders walloped the Process Engineers by 14 to 3 and the Payolas by 20 to 7.

The Y-12 Yankees got an even break for the week with an 11 to 10 edge over the Odds 'n Ends of ORGDP. The ORGDP Process Engineers took the Y-12 Development team by 16 to 6 and the Process Engineers topped the Odds 'n Ends by 27 to 4.

The Y-12 Red Devils was the only league team not to see action in the opening week.

The Carbide Fast Pitch Softball League, slated to get underway last week, delayed its opening until this week with games being slated for Oakwood Park. The entire schedule was moved back one week in this circuit.

The slow pitch standings follow:

Team	W	L
D Shift	3	0
Ky. Wonders	2	1
Eagles	1	0
Process Engineers	2	1
Y-12 Yankees	1	1
9215ers	0	1
Development	0	1
Dodgems	0	1
Payolas	0	2
Odds 'n Ends	0	2
Red Devils	0	0

Lenoir City Leaders Bumped On Links

The race in the Lenoir City Golf League for Carbide divot diggers tightened up considerably in play on May 17 as leading teams took three and one-half point lickings. Clyde Bowles and Larry Koontz were bumped by Mac Wright and Walt Simmons and Thompson-Rogers were trimmed by Schultz-Day. James-Kinkaid held their tie for second place despite being beaten three and one-half points by Beckett-Frank Kennedy. Following this group came three teams deadlocked for third place. Arrowwood-Wray blanked Rutherford-Stinnett for the biggest jump in the standings. Collins-Watson were close behind although losing three to Carter - Morrison. Price - White also ascended the ladder a few rounds by blanking C. E. Harris and Tom Harris for four. Ernest Kennedy-Ludlow rounded out the day's action by taking three and one-half from Spradlin-Knowles.

Frank Kennedy and Cotton Thomas, subbing for W. James, each had 39s for low scratch and L. Kinkaid had a 41. Frank Kennedy had a 33 handicap mark and Charley Beckett 34.

League standing follows:

Team	W	L
Bowles-Koontz	15	5
Thompson-Rogers	12	8
James-Kinkaid	12	8
Rutherford-Stinnett	11 1/2	8 1/2
Schultz-Day	11 1/2	8 1/2
Arrowwood-Wray	11 1/2	8 1/2
Collins-Watson	10 1/2	9 1/2
Price-White	9 1/2	10 1/2
Wright-Simmons	9 1/2	10 1/2
Beckett-F. Kennedy	9 1/2	10 1/2
Carter-Morrison	8 1/2	11 1/2
Spradlin-Knowles	6 1/2	13 1/2
James-Kinkaid	6	14
E. Kennedy-Ludlow	5	15

IT'S RATHER UNUSUAL FOR AN ENTRANT in the Y-12 Annual Fishing Contest to submit a picture of the finny contestant after it has been mounted some time after the catch. However, this was necessary in the case of L. L. Spear, General Machine Shop, and the big bass he caught recently from Ft. Loudoun Lake. The original snapshot submitted by the Y-12 angler became damaged while undergoing processing at the engraving shop so a studio picture was made of Spear and his catch. The Y-12er used a small homemade fly made by himself to land the lunger.

Hill-Hoppe Continue Hot Streak In Ridge Golf Loop With Another Whitewash Win

The red hot Hill-Hoppe combo in the Oak Ridge Golf League of Y-12ers continued their torrid pace last week by posting their second straight whitewash win of six points, Everitt. The triumph extended the victor's lead in the loop to five points.

Last week's matches provided a considerable shakeup in the league standings. Smith-Bartholomew held on to second place with a four-point win over Dehoney - Orrison and Brown-Roberts advanced a couple of rungs up the ladder by blanking Underwood-Matthews by six. Gambill-Hamby drew the bye of the week and also accumulated six points to jump from ninth to fourth place. Mee-McLendon hopped from 10th to a tie for fifth place with a whitewash win over Boyd-Oliphant. Three more shutout decisions were posted with the winners being Thomson-Breman over Ratjen - Davis, Emler - Hines over Wallace-Patterson and True-Earley over Stout - Bailey. Holzknicht-Peckman took four from Youngblood-Burkhart and Cloyd-Hackett beat Gregory-Kurtz by the same margin. Mitchel-Tibbatts and Belvin-Hopkins broke even at three points each.

Art Hines, Allen True and Paddy Peckman each had 41s to tie for low scratch. Ernest Earley posted a 33 handicap for best of the day.

League standing follows:

Team	W	L
Hill-Hoppe	29	1
Smith-Bartholomew	24	6
Brown-Roberts	23	7
Gambill-Hamby	21	9
Mee-McLendon	20	10
Holzknicht-Peckman	20	10
Mitchel-Tibbatts	18	12
Underwood-Matthews	18	12
Kahley-Everitt	18	12
Belvin-Hopkins	17	13
Boyd-Oliphant	15	15
Cloyd-Hackett	15	15
Ratjen-Davis	14	16
Thomson-Breman	14	16
Dehoney-Orrison	13	17
Emler-Hines	11	19
Wallace-Patterson	11	19
True-Earley	10	20
Youngblood-Burkhart	9	21
Gregory-Kurtz	6	24
Bailey-Stout	4	26

Y-12 Netters Meet Set For May 31

Anyone for tennis?

Y-12ers interested in engaging in the net and racquet sport are urged to attend a meeting set by the Recreation Department for next Tuesday afternoon, May 31, at 4:30 o'clock. The meeting will be in the Recreation Office, Room 132-A, Bldg. 9704-2. Those seeking more information on the meeting may obtain it by calling plant phone 7109.

A fast men's singles league operated last summer with 10 players competing. Charley Robinson won the loop championship by beating Alan Christman, who in turn had beaten Sam Campbell, the defending titlist from 1958.

Dark Horse Hamil's 74 Low In Ridge Tourney; Shatley Fires Mighty Blow

Competition Draws 141 Entrants, One Short Of All Time Record Of Players In Plant Event

Considered somewhat of a dark horse in Y-12 tournament circles, Bill Hamil romped in with a 74 for low scratch honors in the second golf tournament of the season last Saturday at the Oak Ridge Golf and Country Club. Art Hines was second with 76, Bill Mee came in third with 80 and Frank Kennedy and Bill Ingle tied with 84s for fourth place. A total of 141 golfers, just one short of a record for a plant tournament, competed.

In handicap scoring in the First Division Ed Gambill was low with 65, trailed by George Oliphant at 70, with Bob Orrison and Shatley deadlocked at 71s for fourth.

Shatley executed what probably was the top single shot of the tournament when he holed out a 190-yard nine iron poke for an eagle two on No. 14, a 336-yard overall journey and a par four.

For most pars in the First Division Al Sawyer, Newt Hamby and Harvey Saylor deadlocked at 11 each.

Other results follow:

Second Division: Scratch, Clyde Hudson 80, I. G. Speas and George Everitt tied at 82, B. M. Burris 87. Handicap, Bill Maddux 68, Ed Ellis 69, H. C. Nichols and R. P. Wallace tied at 71. Most pars, Joe Miller 10, J. P. Smith eight.

Third Division: Scratch, H. R. Butler 86, L. E. Burkhart and Richard Luck tied at 87, Larry Lasher 88. Handicap, W. C. Hoppe 68, Ed Owings 69, Jay Fielden 70, Bill Whitson 72. Most pars, Walt Simmons seven, Arch Stewart and J. P. McMillan tied at six.

Fourth Division: Scratch, W. A. Rutherford 90, Paul Trebilcock 96, Phil Breman 98, O. E. Gilcrease 100. Handicap, H. C. Huston 71, Mervin Sanders 72, Bob Tilley and Ed Del Grande tied at 74. Most pars, Joe Youngblood five, Paul Bass, F. S. Patton and Ernest Stinnett tied at four.

Memorial Day Go-Kart Racing Program Slated

While the big gas buggies are roaring around racing tracks at Indianapolis, Daytona Beach and other sports centers on next Monday, Memorial Day, the sub-midget vehicles known as Go-Karts, will be buzzing around a course over at Maryville in a program that is expected to attract around 60 of the little speedsters.

Al Sawyer, of the Y-12 Electrical Department, is an enthusiastic supporter of the Go-Kart racing movement that is becoming increasingly popular in this section. He owns a Kart and will compete in the Maryville program along with fellow-members of the Knoxville Go-Kart Association, some Oak Ridge entrants and a number from Maryville and environs.

The Monday race program will be staged on an especially constructed track at the Maryville Drive-In Theatre. The track is irregular in shape with about five curves and is approximately one-quarter of a mile long. The program will consist of time trials to select driving positions in a 50-lap feature race. The first event begins at 2 p.m.

Martin-Patrick Top Harriman Golf Loop

Martin-Patrick held their one and one-half point lead in the Harriman Carbide Golf League after the fifth round of play by posting a four-point whitewash win over Thomas-Hamill. Henck-Lyon kept the pace in second place with a similar win over Cuneo - Grimes. Shutout wins were the order of the day as Creswell - Winters blanked Magyar-Sharpe, Isham-Crass handed Tilley-Willmarth a similar licking and Ellis-Brown blasted Pickel-O'Keefe. Brown-Jordan took three and one-half points from Buttram-Brown and Stanley-McCoy trimmed Webster-Franzreb by three.

League standing follows:

Team	W	L
Martin-Patrick	17	3
Henck-Lyon	15 1/2	4 1/2
Isham-Crass	14	6
Tilley-Willmarth	12 1/2	7 1/2
Winters-Creswell	12 1/2	7 1/2
Bob Brown-Jordan	11	9
W. H. Brown-Ellis	10 1/2	9 1/2
L. E. Brown-Buttram	10	10
Webster-Franzreb	10	10
Thomas-Hamill	8 1/2	11 1/2
Grimes-Cuneo	8 1/2	11 1/2
Pickel-O'Keefe	4	16
Stanley-McCoy	4	16
Sharpe-Magyar	2	18

Carbide Archery Loop Opens Season

The Carbide Archery League got away to a good start on May 17 when 31 bow benders competed in the firing. Nine teams have been formed for the league with captains being picked from high scorers. The league will continue for 12 more weeks.

Roy Hardy, Y-12; and Charley Asmanes, ORNL, tied for top scoring honors at 222 each scratch and 288.890 each in handicap. The All Spots team led after the first round of action with nine scratch and five handicap points to their credit and high handicap tally of the day with 576.7413. The high scratch team score was 437 by the Nock Busters.

The league has invited any Carbide interested in the bow and arrow sport to come out any Tuesday afternoon at the Oak Ridge Sportsmen's Association and take part in the competition. Women enthusiasts particularly are invited to take part. Firing begins at 5 p.m.

H Shift To Hold 'Stag' Boat Cruise

A "for men only" boat cruise from Kingston to Chattanooga will be held by Y-12ers on the H Shift as a recreational activity over the coming week end. A flotilla of about 20 private motor boats is scheduled to leave Kingston at 9 o'clock Saturday morning, May 28, hoping to arrive in Chattanooga late in the afternoon, spending the night there camping out. The return trip will be made on Sunday, May 29. The voyage to Chattanooga is about 95 miles and all of the boats in the "Y-12 Navy" will stick together as far as possible during the cruise. Drawings for prizes will be held during the trip.

THIS FINE CATCH OF KING AND SPANISH MACKEREL was taken by a party of five, including one Y-12er and other East Tennesseans, from the Gulf of Mexico on Saturday, April 16. Sailing from Crystal River, Fla., the anglers landed 26 of the beauties in about six hours of fishing. The folks in the picture, from left, are Capt. Pete Weis, skipper of the fishing boat chartered by the party; Jim Fuller, Oak Ridge Gaseous Diffusion Plant; Miss Mary White, Fred Henry, Y-12 Buildings and Grounds Department (in white cap); and Mrs. Henry. Kneeling at right is Miss Bess Miracle, of Oak Ridge.

Gore, H. H. Buckner and R. E. Wallace are the ailing members of the department to be receiving get well wishes.

TECHNICAL

J. Clyde Bowles, the Mahatma of Mechanical Inspection, and family will ramble over to Sewanee Military Academy this week to see Jay, Jr., graduate . . . W. M. James vacationed at home in Lenoir City.

Seems as most of Radiation Safety's vacations have been industriously spent working around homes—with maybe a second week spent in recovering (this is to ease their consciences, says Correspondent Jane Walker) . . . M. Sanders is planning to paint his house . . . Exceptions to the trend are the bachelors in the gang . . . For instance, Ray Whitehorn is spending a couple of weeks around Daytona Beach and other fine points in Florida.

The Metallurgical Development chapter of Development Operations is congratulating Paul Evans and his wife on the arrival of their first child. It is a little girl, Celeste Ann, born May 17 at Oak Ridge Hospital, weighing seven pounds, three ounces.

The CC has a crick in his neck from bending thisaway and thataway to decipher the notes of Jeri Kobish, reporting from Special Projects . . . Helen Stone is bouncing all over the place in delight over the recent birth of a nephew, Andrew Giles Smith, III, who weighed eight pounds, 11 ounces . . . The young (?) men of the Bldg. 9212 chapter of the department — Ken Bowers, Jay Fielden, Chet Borge, Jim George, Ted Newman, Fred Jones and Larry Rinderer — have taken up the Honorable and Ancient Game of Golf in a big way—singularly, in twosomes and tournaments and at departmental get-togethers . . . Those hardshell fanatics so loyal to fishing, boating — and airplaning—Harvey Hankins, Frank McGuiness and Harold Williams, have religiously avoided catching the links-loving bug . . . In the ever-so-happy-to announce category is word that former Y-12er Helen Gordon has presented her husband, W. O. Gordon, Process Maintenance, with a charming little girl on the week end of May 7—mom and child are doing fine . . . The SPs also are happy to report that Bobby Bagwell is feeling right chipper these days and managing well after his eye operation . . . The Beta Four group of the department extends a belated, but hearty, welcome to Tom Keane, transferred from Mechanical Engineering. He has assumed the duties of the late Ronnie Austin. . . It is hoped that Jim Kennedy's vacation wasn't too much of a good time—he's been on and off the sick list ever since feeling a might bit puny . . . After slaving like a Trojan horse for months, Sam Rea has assumed the light duties of answer man while his hand mends from a recent operation . . . Folks in the SPs don't need that siren to tell them the working day is done—they all hang around for the beautiful aroma exuding from Margaret Williams, who dutifully waits until tooting time to daub on the perfume.

FINANCE AND MATERIALS

They said it couldn't happen here—but one and all are invited to take a gander at the rejuvenated Eddie "Grandflappy" Pluhar, F&M Administration—he has shed the physical characteristic that so aptly earned him the nickname of "Snow-drift." You all can call him "Skinny" now.

A real gal to take punishment is Margaret Parks, Reproduction. On a recent week end she chaperoned a group of Kingston school eighth graders on a camping and hiking trip to Cades Cove in the Smokies with a trip to Clingman's Dome on the side—and Margaret survived.

Material Control's T. E. Roberts is taking a golfing vacation on nearby courses.

Resting up over at his Clinton home while vacationing is Bob Robbins, Engineering Records.

Doing about the same is S. P. Cook, Engineering Services, at his home in Oak Ridge.

There was a "hot time in the old town" of Maryville over the past week end for the Property Department's Clifford Anderson family. A homecoming with a relative Cliff hadn't seen for many years was the occasion.

The Gillihans—Joyce, of the Mail Room; and hubby Charley, of SS Control, chose Daytona Beach, Fla., for their vacation.

SHIFT SUPERINTENDENTS AND UTILITIES

The parents of Jean Jones, Utilities, visited her over the past week end. They are from Dowelltown . . . Don Bell and J. D. Barnette both picked Daytona Beach for their vacations . . . E. A. Wells is staying home to catch spring lizards—probably for fishing . . . D Shift's recent long break found E. W. Mahan working on the lawn of his new home; E. R. Bailey, L. L. Kilgore and O. F. Jordan fishing; N. M. Standridge camping in the mountains and C. W. Matlock working on his lakeside cabin.

Fishing in East Tennessee lakes and a visit to Lebanon, Tenn., will occupy the vacation time of G. M. Martin, Steam Plant . . . "Pop-Up" Wright is painting his house and then will rest up with some golfing. . . H. D. Baker joined the Proud Pop's Club recently and took a vacation to become acquainted with his new daughter.

ENGINEERING

Mechanical Engineering is taking advantage of May vacations. In this category this week are Pat O'Brien, who is going nowhere and doing nothing at all; Peggy Hardin, who is helping her spouse paint their house in Oak Ridge; and Kirk Delcours who loaded up his family and went West—as far as St. Louis and vicinity, that is . . . The ME's report a brand new man in the department. He is H. E. Neeley who resides in Inskip . . . Wayne Collette is refinishing his schooner.

In closing, the Colyum wants to note the retirement as a Carbide newsman since 1947 of Marc Sims, for the past several years editor of The Carbide Courier. Marc came to work on The Bulletin September 10, 1947, transferred to Oak Ridge National Laboratory July 1, 1948, to

THREE CHARMING DAUGHTERS OF Y-12ERS were crowned queens of the Girls' Auxiliary of the Oak Ridge First Baptist Church recently. At left is Glenda Jo Thomas, queen with scepter, daughter of J. T. Thomas, Process Maintenance. Her attendants are Jimmy Blay, scepter-bearer, son of Alan Blay, T/V Shop; and Lisa Bearden, flower girl, whose father is Joe Bearden, Electrical. The center picture shows Karen Strasser, also a queen with scepter, daughter of George A. Strasser, Assistant Y-12 Plant Superintendent. Her attendants are Margaret Kite, whose father is Harvey Kite, Development Operations; and her brother, Dale Strasser, who was scepter-bearer. At right is Betty Ann Hodnett, the third queen of the group, daughter of S. A. Hodnett, Instrument Engineering; with her sister serving as flower girl. Billy Tabor, son of W. H. Tabor, Oak Ridge National Laboratory, was scepter-bearer.

'Junk Mail' Proving Mail Room Problem

Continued from Page 1

partment has issued an appeal to Y-12ers who are the recipients of this type of mail—and their own legitimate mail—to have as much of it sent to their homes as possible instead of to their plant addresses. It is pointed out that out of the many technical publications received for Y-12ers in the Mail Department, a considerable number of them go to employees in the same group and that a move to have the addresses changed to homes would help alleviate the situation.

Full Distribution Impossible

As matters stand, the Mail Department has few alternatives. As much of the accumulated "junk mail" that can be delivered will be delivered but there is so much of it that all of the material on hand just can't be distributed.

Gazing disconsolantly at the vast pile of such material on hand, one Mail Department employee mused: "I don't see how so many Y-12ers got on so many sucker lists."

High School, Elementary Classes Are Set By AEP

Summer quarter classes for day school pupils in high school and elementary school grades have been announced by the Oak Ridge Adult Educational Program. Registration for both groups will be held from May 31 through June 10, when all prospective pupils must be enrolled.

The high school courses will run for eight weeks and the elementary classes for four weeks, with courses offered from the fourth through the eighth grades. Classes will begin on June 13 and further information may be obtained from the Adult Education Program office in the Oak Ridge High School, Oak Ridge phone 5-6316.

Caltech Man Will Address Physics Seminar At ORNL

R. L. Mossbauer, of the California Institute of Technology, will speak at the seminar meeting of the Oak Ridge National Laboratory on Friday afternoon of this week, May 27. The session will be at 3:15 o'clock in the auditorium of Bldg. 4500, ORNL. The discussion subject will be "Nuclear Resonant Absorption of Recoil-Free Gamma Rays in Solids." Y-12ers interested in the topic are invited to attend the seminar.

become the first editor of the ORNL News. He remained there several years before completing the circle and taking over the editorship of The Courier at ORGDP. The Colyum wishes him the best of luck in future years. Doug Carter, who has been Marc's stand-in for some time, becomes editor of The Courier.

"UNCLE" CLEM JONES, of the Y-12 Receiving Department, is mighty proud of his niece, Miss Roberta Lee Tilson, above, who graduated from Wartburg Central High School May 18. She was the only member of the graduating class with a perfect attendance record during 12 years of school, having never been absent or tardy. She is the daughter of Mr. and Mrs. Foy Tilson, Route 2, Lancing, Tenn., and has been active in many school activities.

Shoppers Planning Rodeo And Picnic

The Y-12 General Machine Shop has planned an all-day fishing rodeo and picnic for Saturday, June 4, at the Roane County Park on Watts Bar Lake. The affair is for Shoppers and members of their families and an attendance of some 600 persons is expected. The entire park has been reserved for the occasion. Prizes will be awarded for the largest fish of several species caught by an adult and for the most fish caught by anyone under 16 years of age.

AEC Chairman Hails Voyage Of USS Submarine Triton

Chairman John A. McCone of the U.S. Atomic Energy Commission has hailed the historic voyage of the USS Triton. Chairman McCone said: "This is one of the finest achievements yet of our nuclear navy. The Triton, first of its class, again demonstrates the great values and dependability of nuclear propelled submarines. The ship was designed and developed by the U.S. Atomic Energy Commission and the Navy in close cooperation. It is another example of what can be accomplished when our civilian and military scientists and engineers are brought together in one group having single-mindedness of purpose. Its performance is another tribute to the vision and accomplishment of Admiral Rickover and his staff."

Give a "star performance" for security.

Electrical Rodeo Draws 31 Anglers

The May 14th fishing rodeo staged by the Y-12 Electrical Department, drew 31 anglers competing for valuable and useful prizes. The event was based at the White's Creek Boat Dock on Watts Bar Lake.

The door prize of a spinning reel was won by Jim Poe, son of E. F. Poe. E. E. Cook won a dock prize of a fishing rod and also a landing net with a seven and one-half ounce bream. The biggest fish of the day was a five-pound, one and one-half ounce largemouth bass that brought a spinning rod to J. L. Morgan. Sam King's two-pound smallmouth bass won him a spinning rod. A 10-ounce crappie caught by A. E. Richt was worth a tackle box. B. M. Cox won a casting reel with a 10-ounce sauger pike. A minnow bucket was awarded R. J. Spurling for catching a five-pound gar.

Hunt, Fish Permits Going On Sale Soon

The new hunting and fishing license for the 1960-1961 season will go on sale in Tennessee early in June. Mrs. Frances B. Taylor, chief of administrative services and fiscal operations for the Game and Fish Commission, has stated that the new licenses will be shipped to all County Court Clerks' offices and license sales agents on May 31 and will be available for purchase as soon as they are received.

Horseshoe Hurlers Will Meet May 26

Horseshoe hurlers of Y-12 wanting to continue the popular sport this season are urged to attend an organizational meeting to be held at 4:30 o'clock tomorrow afternoon, May 26. The meeting will be in the Recreation Department office, Room 132-A, Bldg. 9704-2.

Horseshoe pitching long has been an attraction for Y-12ers not desiring more strenuous competition. During last summer there were eight two-man teams in a plant league. The league crown was won by Joe Dunlap and Vern Stanley.

East State Getting More Keeper Trout

Trout streams in four Upper East Tennessee wildlife management areas now are receiving an added supply of keeper-size trout, according to Dr. Glenn Gentry, chief of fisheries management for the Game and Fish Commission.

The areas receiving the latest release of rainbow include the Unicoi, Kettlefoot, Laurel Fork and the Andrew Johnson management areas. Dr. Gentry said that in this fourth stocking of the season a total of 5,300 adult fish will be planted.
